

LNVH Advancing Women in Biology Grant 2025 - Application Form

Eligibility

The LNVH Advancing Women in Biology grant is created for women PhD candidates working in the field of biology, focusing on the fundamental principles, processes and behaviour of living organisms, including research in the fields of self-organisation, collective behaviour, behavioural biology, endocrinology and behaviour, ecology, evolutionary biology, genetics, microbiology, botany, zoology, and related disciplines. The candidate must be affiliated with a Dutch university or research institution. The grant was created on the initiative of Prof. Dr. Charlotte Hemelrijk. More information can be found in the regulations document on the LNVH website.

Submitting your application:

Please send the completed application form (pdf) to info@lnvh.nl. The application deadline is **December 15, 2025**. Applications sent after this date, or in any other way than stated above will not be considered. Candidates will be informed of the awarded allocations at the beginning of February 2026.

Privacy statement

LNVH will use your personal information only within the context of your application. If you are interested in receiving LNVH mailings and newsletters, please let us know on the application form.

<u>Candidate</u> Name Candidate:
